

Fungicidal mixtures for controlling rice pathogens

Abstract

5 Fungicidal mixtures for controlling rice pathogens, comprising, as active components,

1) the triazolopyrimidine derivative of the formula I,

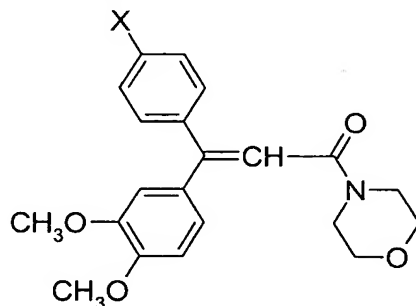

I

and

10

2) an acryloylmorpholide of the formula II,

II

in which X is chlorine or fluorine,

15 in a synergistically effective amount, methods for controlling rice pathogens using mixtures of the compound I with the compounds II, the use of the compound I and the compounds II for preparing such mixtures and compositions comprising these mixtures are described.
